SONOTEC presents Case Study at IMVAC

The International Vibration Analysis and Condition Monitoring Conference (IMVAC) is designed specifically for vibration analysts and condition monitoring professionals. At June 7, Prof. Dr. Peter Holstein, Director Strategic Development, will be presenting a case study. [\[read more\]](#)

---

12.04.2018

Premiere at HANNOVER MESSE: SONOTEC presents new broadband parabolic sensors for the SONAPHONE digital ultrasound testing device

Detecting errors before they occur - that's the objective of preventive maintenance. The HANNOVER MESSE will be addressing the topic of "Predictive Maintenance" with a dedicated exhibition area, where SONOTEC will be demonstrating how companies can save energy and improve the efficiency of the... [\[read more\]](#)

---

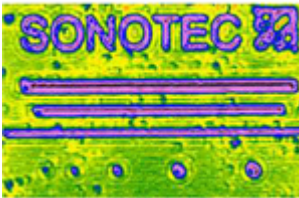

06.04.2018

SONOTEC at INTERPHEX and BioProcess International European Summit: Non-invasive Sensors for Bioprocess & Pharmaceutical Applications

SONOTEC will be exhibiting at this year's INTERPHEX in New York, USA, from April 17th to 19th as well as the BioProcess International European Summit in Amsterdam, the Netherlands, from April 24th to 25th. Both events are perfect opportunities to demonstrate the company's ultrasonic solutions for... [\[read more\]](#)

07.09.2016

#### SONOTEC at BioProcess International Conference & Exhibition 2016: Sensors for Bioprocessing and Pharmaceutical Technology

SONOTEC will be presenting for the first time at this year's BioProcess International Conference & Exhibition, the largest bioprocessing event in North America. On October 5 to 7, 2016, the ultrasound specialist exhibits clamp-on sensors for flow measurement at booth 639 at the Boston Convention... [\[read more\]](#)

---

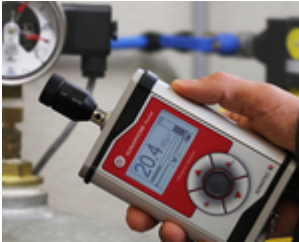

14.07.2016

#### SONOTEC Presents New SONAPHONE - Innovative Ultrasonic Testing Device for Maintenance 4.0

The new SONAPHONE extends the product range of the ultrasonic specialist SONOTEC with a digital ultrasonic testing device including touchscreen technology. This device for preventive maintenance is a hit with users thanks to apps that are intuitive to operate and opens up new domains of application... [\[read more\]](#)

---

04.07.2016

#### SONAPHONE Pocket - Compact ultrasonic testing device for industrial maintenance

By introducing the SONAPHONE Pocket the ultrasonic specialist SONOTEC is expanding its product range with a compact ultrasonic testing device that has an optimal price-performance ratio. The smallest testing device of the SONAPHONE family is applied primarily for leak detection on compressed air,... [\[read more\]](#)

---

07.04.2016

#### Ultrasonic clamp-on sensor SONOFLOW CO.55 V2.0 - new with frequency output and volume switch

SONOTEC equipped the new version 2.0 of the contactless clamp-on flow sensor SONOFLOW CO.55 with additional outputs. Now the compact ultrasonic flow meter is able to perform small control tasks and can be used in more versatile applications. [\[read more\]](#)

---

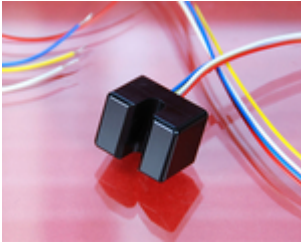

30.03.2016

#### Premiere at HANNOVER MESSE 2016 - New ultrasonic testing device for preventive maintenance

The SONAPHONE digital ultrasonic testing device is at the center of the presence of SONOTEC Ultraschallsensorik Halle GmbH at HANNOVER MESSE. From 25 to 29 April 2016 the ultrasonic specialist will present its new innovative ultrasonic testing device for preventive maintenance for the first time as... [\[read more\]](#)

---

21.01.2016

SONOTEC at MD&M West 2016 - Sensors for Medical Technology

SONOTEC presents at this year's MD&M West – the largest show for medical technology in North America – ultrasonic sensors for flow measurement and air bubble detection. The German ultrasound specialist exhibits the products from February 9 to 11, 2016 at booth 1999 in the Anaheim Convention Center. [\[read more\]](#)
